

The Xtreme Builder Bonus rewards newly enrolled Distributors who grow their Xyngular business quickly. Here's how the Xtreme Builder Bonus works:

1 10,000GV, 15,000GV, and 20,000GV Xtreme Builder Bonus

- If a Distributor accumulates 10,000GV in 7 levels in their first 30 days (bonus period one), they will receive an additional bonus of **\$1,000!**
- If a Distributor accumulates 15,000GV in 7 levels in their first 30 days (bonus period one), they will receive an additional bonus of **\$1,500!**
- If a Distributor accumulates 20,000GV in 7 levels in their first 30 days (bonus period one), they will receive an additional bonus of **\$2,000!**

2 30,000GV Xtreme Builder Challenge

- If a Distributor accumulates 30,000GV in 7 levels during days 31-60 (bonus period 2), they will receive an additional bonus of **\$3,000!**

3 40,000GV Xtreme Builder Challenge

- If a Distributor accumulates 40,000GV during days 61-90 (bonus period 3), they will receive an additional bonus of **\$4,000!**

Guidelines:

1. The \$1,000, \$1,500, and \$2,000 Xtreme Builder Bonuses are not cumulative. A Distributor will be paid for their highest achieved bonus.
2. The payments at 30,000GV and 40,000GV are in addition to what the Distributor earns on their first 30 day Xtreme Builder Bonus. For example, if a Distributor accumulates 30,000GV in their second 30 days (days 31-60), they would receive a total bonus payout of \$5,000 (\$2,000 + \$3,000).
3. If a Distributor accumulates 40,000GV within their first 30 days, they would receive the entire \$9,000 Xtreme Builder Bonus (for all 3 bonus periods) in addition to their normal commissions.
4. Each Xtreme Builder Bonus period is 30 days long, with the first period beginning on the day of signup (the day of signup is day 1, regardless of the time of day enrollment occurs). The second bonus period begins 31 days after signup and concludes 60 days from signup. The third bonus period begins 61 days after signup and concludes 90 days from signup.
5. If a Distributor does not accumulate enough volume in their first 30 days to qualify for first Xtreme Builder Bonus, they are still eligible to qualify for the bonuses in 2nd and 3rd periods if they reach the required volume (30,000GV in period 2 and/or 40,000GV in period 3).
6. No more than 60% of the GV to qualify for these bonuses can come from any one leg.
7. There is no XV requirement to qualify for the Xtreme Builder Challenge. However, to qualify for bonus pools, the XV requirements apply.
